Kesan Anatolian High School

2002 – 2006

Sciences, Diploma Score : 4.39/5.0

## **Job Experiences**

### **Intern Engineer**

#### **Elsi Electric Systems Ltd. Company**

**07.2013 – 09.2013 (2 months) | Bursa – Turkey | Full – Time**

Elsi was started at 1995, in Bursa, Turkey as a wire harness supplier for automotive, household goods and construction machines sectors. Since the start of the company, ELSI has been an active supplier for both Turkish and European customers. Based in Bursa, which itself is a promising logistics center, a center of automotive and metal industries, at least %65 of their sales are exports. They are capable of operating globally, supplying customers in many different continents. They are accustomed to logistics operations in different parts of the world.

When it comes to experiences that I gained at ELSI, due to the fact that they had a wide range of customers in the field of either automotive or cooling and heating systems industries, Therefore, i had the opportunity to be informed of harness wire production during the lean manufacturing and sample test process. Last but not least, I had the chance to work with their engineers about demands coming from sub-industries that they had experienced difficulties on their mechanical assembly line.

### **Intern Engineer**

#### **HONDA Tr Inc. Company**

**08.2014 – 09.2014 (1 month) | Istanbul Asian Side – Turkey | Full – Time**

Honda Tr Inc. Company has one plant which is situated, in Gebze, Turkey and also it has responsibility of manufacturing, importation and marketing with respect to Honda private cars as well as Honda motorcycles.

Mainly at Engine Assembly Department that is built on the production line and occasionally at the Quality Department i participated in reporting vehicle identification numbers and chassis numbers of Honda private cars that were produced as a result of defective manufacturing besides orientation training. Moreover, as you know, i had the chance to learn several quality standards that were being applied at Honda Inc. Company, such as ; 5S, Kaizen, 6 Sigma, FMEA, Global 8D originated in Japan in the field of automotive industry.

## **Intern Engineer**

### **Enerjisa Inc. Company**

**07.2015 – 09.2015 ( 2 months) | Istanbul Asian Side – Turkey | Full – Time**

Enerjisa Inc. Co. is one of the best companies that carries on its activities with regard to the construction, maintenance and management of electric distribution network in districts of Istanbul Asian Side.

I took charge in Kadikoy Electric Network Centre which is one centre out of eleven being included in Enerjisa Inc. Co. Throughout my internship period, as i can say without any hesitation, i seriously served as operation engineer within power cable fault debugging and arranging lighting and power distribution unit projects. And also, i had the opportunity to attend weekly meetings that were being held with their employees in order to get ahead in occupational health and safety so that i learned several business ethics and requirements between directors and employees from these weekly meetings as well.
